

**'Education At Work'**

**Renewable Resources – Recreation, Fish and Wildlife Technology Program**

**Program Objectives:**

The focus of the *Recreation, Fish and Wildlife* Program is to provide relevant learning experience for individuals seeking careers in parks, forest recreation, fish and wildlife management, conservation or commercial recreation. The emphasis of the program is in the growing field of recreation and tourism, and fish and wildlife management in the working forest and in protected areas. The program of study is designed to lead into three major areas of interest: recreation planning and management, fish and wildlife management, and ecosystem management. The dedicated individual, with adequate motivation and an interest in a very competitive field, can develop a rewarding career in recreation, fisheries or wildlife management.

**Co-op Education Objectives:**

Co-op Education is a process of education that formally integrates students' academic study with periods of related work experience in cooperating employer organizations. Selkirk College's Co-op Education programs are designed within guidelines established by the Canadian Association for Co-operative Education (CAFCE) and in consultation with federal and provincial government agencies.
