

ski resort risk management

AT SELKIRK COLLEGE

Online Course and Textbook

Course Objectives

- To provide an accessible and practical training tool.
- To have participants understand the “big picture” of Risk Management to develop strategies and tactical plans for their area of responsibility.

For

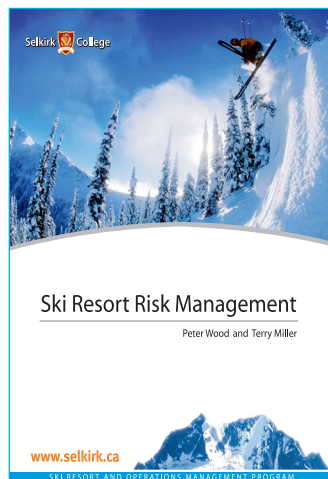

- Anyone with risk management responsibilities in Canadian ski resorts; risk managers, operations managers, ski patrollers, supervisors or managers in any department from Food & Beverage to Snow School.

Teaching Methodology

- Focus is on the risk management process vs. detailed “how to” for specific risks.
- Assignments will lead students through the development of a risk management plan for their department.
- Evaluation is primarily assignment based vs. exam based.
- Online discussions with industry peers create a participative learning experience.

Course Content

- Introduction to online learning
- Risk Identification
- Risk Evaluation
- Risk Control
- Risk Financing and Insurance
- Legal Liability
- Ski Area Case Law
- Risk Mgt. Administration and Documentation
- Occupational Health & Safety
- Current Issues

Dates/cost/time

- The course begins approximately February 1st each year running for 12 weeks until late April. Space is limited, so register early.
- Estimated time commitment – Average of 7-8 hours per week (assuming reasonable computer, keyboarding, reading and writing skills and a high speed connection).

PLEASE CONSIDER YOUR TIME AVAILABILITY BEFORE REGISTERING. WE CANNOT REFUND OR CREDIT TUITION FOR PARTICIPANTS WHO ARE UNABLE TO COMPLETE THE COURSE.

- The price for 2012 (including tuition, text, all fees and taxes) \$593.33

Testimonials

“Selkirk’s Ski Resort Risk Management online course provides a comprehensive, thought provoking journey through the realities of resort Risk Management. With a mix of opinion, and hard fact, this course has given me a stronger understanding of the importance and effects of a quality Risk Management program at our resort.”

Mark Rutherford, General Manager, Oshawa Ski Club

“Selkirk’s Risk Management course will help ski resort employees recognize and understand risk management issues, mainly within the resort setting. This is a fantastic course aimed at supervisors and leaders and will help develop a risk management culture within your team and organization as a whole.”

Rob Ellen - Mountain Operations Supervisor, Ski Marmot Basin, Jasper, AB

Textbook

The Ski Resort Risk Management textbook outlines a wide range of sound risk management practices and strategies to keep resort guests and employees safe and to meet requirements and challenges posed by the legal system, the insurance industry, and government regulatory agencies. It is 267 pages. The price is \$95.00 plus HST + shipping. Contact the Selkirk College Book Store, 250.365.1281.
